

## June 2008

Latest and most up-to-date list of promo/coupon codes for GoDaddy. I personally check the list on a daily basis to make sure that it's 100% working.

I am one of GoDaddy's regular customer as I register anything from 1 to up to 20 domain names per month for my web business. I do have friends and clients who regularly ask me to setup a simple blog and web portals for them.

So far, GoDaddy is one of my personal favorite domain name registrar and web host.

Since I regularly check for the latest GoDaddy promo code: I'd like to share it here as well.
