

## September 2008

I've personally checked GoDaddy's promo codes on (29th August) for this August 2008 codes. You can find the codes live and active for your usage below. Would definitely appreciate it if you could use my affiliate links.

Highlights for this month are 30% discount for all domains (works wonder for my .net domains) and don't forget the \$6.95 .coms. I've just registered another 5 .coms using the code which saved me app. \$15 bucks!

Enjoy!
